Have you previously received a Parade grant from New Mardi Gras? If yes, please provide the name of the group, the year(s) in which the grant was given and the amount of funding received:

MG2009 – Surry Hillsong, \$900 for the Surry Hillsong Bus (<http://www.yarwood.com.au/mg2009>)
 MG2008 – 58'08 collaboration with GLRL, \$300 for A3 plastic sleeves (<http://www.yarwood.com.au/mg2008>)
 MG2007 – Karma Kleeners, \$800 for audio (<http://www.yarwood.com.au/mg2007>)

Please describe the creative concept for your float, ensuring that you outline how the grant will be used to enhance its production value. For example, if you plan to use the grant to hire a special effects lighting unit, describe how it will fit into the overall context of your parade float (if you run out of room, please attach additional pages):

This parade entry will have **Buzz RightsYear** riding in his Star Command spaceship surrounded by an orbit of about 30-40 three eyed Little Green Men from Pixar's Toy Story. Toy Story 1 & 2 in 3D is in cinemas at the moment before the release of Toy Story 3D in June 2010. So this is a very timely parade entry.

If successful in our grant application we intend to use the monies to partly fund the hire (%50 of costs) of a "LASER BEAM" (ORACLE T42) and peripherals, which can be programmed for specific patterns or text. Oracle Attractions are providing the 1kVA generator gratis as they are not comfortable with using non-surge protected and unreliable equipment with the expensive "LASER BEAM". We are only able to provide one quote for this equipment because no other company is able to supply this equipment for hire.

The "LASER BEAM" will be mounted in a gun turret on the spaceship and will project Buzz's catchcry:

"TO EQUALITY AND BEYOND..."

onto the facades of the buildings bordering the parade route then **"to infinity and beyond"**. This is much better and more conspicuous than a banner or placard and will facilitate the promotion of our theme of equality in an attention grabbing, innovative and effective way to the largest possible audience.

We believe that this would also be the first time a "LASER BEAM" would be used in the parade on a community group's entry. This would have the added benefits of setting the precedent for other groups to think outside the square and employ innovative methods in their parade entries.

It may be unusual to request a grant to partly fund an entry's big ticket item, but we also accept that New Mardi Gras are unlikely to be able to afford the full cost of out of the Parade Grants Scheme and therefore disadvantage other groups. Therefore we are offering to split the cost 50/50 with New Mardi Gras to enable us to produce an exciting and memorable parade entry by the enhanced production of incorporating the "LASER BEAM" in our float.

Specify the value of the grant sought:
50% of \$1980 = **\$990 (incl. GST)**

Aside from a grant, please explain how you intend to fund your budget (i.e. personal, fundraising at work etc):

We intend to fund our budget by a combination of participant contribution, some equipment at gratis and fundraising.

Please provide an itemized breakdown of your budget. Include a line item(s) for the cost(s) you are seeking the grant for. Attach a separate spreadsheet if necessary.

Description of cost / expense

Please refer to the attached budget spreadsheet (page 3 & 4/5) and quote from Oracle Attractions (page 5/5).
